

## Versa Multi Board

\$499

VERSA is the newest and easiest way to get riders of all skill levels wakeboarding, kneeboarding, skiing, wakesurfing, or even wakeskating. VERSA is made of PU foam filled Rotomolded PE, with a molded EVA deck which is easy on your knees and feet. Slip on foot straps can be placed in a variety of positions to allow skiing and wakeboarding. Removable handles can be installed for kneeboarding, and then easily removed for other activities. Progressive edge design allows the rider to cut back and forth across the wake with ease, but it still rounded in the middle so that surface tricks are a breeze. Great for all ages and all skill levels.
