

Lowrance Elite 5Ti Fishfinder-Chartplotter

\$1,160

Sporting a five-inch, high-resolution touchscreen display, the Elite-5 Ti has your sonar needs covered with StructureScan® HD compatibility and support for Low/Mid/High CHIRP and 83/200 /455/800kHz frequencies. It has a built-in GPS antenna and trusted Lowrance navigation features, allowing you to navigate with ease.

The Elite-5 Ti also features integrated Bluetooth® and wireless connectivity that not only allows you to download software updates directly to the unit, but gives you the capability to download Insight Genesis custom maps to the unit – for immediate use – directly from the water.

Includes Transducer and NZ Chart.
