

Radar Katana Water Ski

\$1,190

The Katana is ready to take you wherever you want to go. It's purpose-built for open-water lines in varying conditions due to our All-Terrain Core. The 100% Carbon build keeps your speed up for an increased cadence and energetic ride. The Katana says you're ready for anything.

FEATURING

- All-Terrain Core – most forgiving construction
- 100% Carbon Laminates – consistent flex every time
- Stability and Speed – our unique construction offers the best of both
- Grip Rails – allow you to maintain edge through the wakes

The Bent Vee series has revolutionized open water skiing. Width under foot allows these skis to pop out of the water with ease. This combined with a flat channel and grip rails allows a ski with more surface area to perform like a much narrower and nimble ski. Our Bent Vee collection will make you rethink what is possible on a wider ski, take it for a ride.
