

Tenob Outboard Transom Bracket Fixed

\$199

TENOB product.Â Made in NZ.Â Lifetime marine grade 3mm stainless steel.Â 10hp or 38kg maximum (long shaft models: 8hp max.).

Short Version - OU6S

- Suitable also for motor storage at home or on the launch due to its compact dimensions.
- 235mm wide x 190mm
- Side brackets are angled up ten degrees to compensate for the transom angle.
- Mounting holes: 190mm horizontal x 123mm vertical spacing, centre to centre. Four holes 11mm diameter (use 10mm (3/8") mounting bolts).
- Timber size: 220mm wide x 160mm high x 35mm. This version allows most motors to tilt up without touching the transom.
- NZ Made

Long Version - OU6

- 235mm wide x 295mm
- Side brackets are angled up ten degrees to compensate for the transom angle.
- Mounting holes:Â 190mm horizontal x 123mm vertical spacing, centre to centre.Â Four holes 11mm diameter (use 10mm (3/8") mounting bolts).
- Timber size: 220mm wideÂ x 160mm high x 35mm
- NZ Made
