

## ResQLink 406 GPS PLB

\$500

**Summer Special of \$499!!!! Was \$550. Also \$50 Cash Back for Limited Time!**

ResQLink offers more power output than larger models. Ideal for boating, canoeing, camping, hunting, kayaking or mountain climbing.

Featuring three levels of integrated signal technology - GPS positioning, a powerful 406 MHz signal and 121.5 MHz homing capability - the Res-Q-Link quickly and accurately relays your position to a worldwide network of search and rescue satellites, reducing search time and increasing your chances of survival. What's more, the Res-Q-Link is small enough to be easily carried in a pack or pocket and will float if accidentally dropped overboard.

ResQLink+ Even in extreme conditions and situations, the ResQLink+ activates easily. Just deploy the antenna and press the ON button. With its powerful 66-channel GPS, the ResQLink+ guides rescuers to within 100 meters or less of your position. Search and rescue personnel are typically alerted of your position in as little as five minutes with a GPS-enabled PLB such as the ResQLink+.
