

## Mercury Marine Grease 2-4-C with PTFE

\$39

Mer cruiser 9-802863A1 Quicksilver 2-4-C Marine Lubricant with PTFE 14 oz. Tube.

A high quality multi-purpose lubricant to withstand extreme friction in all marine applications. Extremely water-resistant - won't break down when mixed with water. Contains Teflon® for added friction reduction and reduced wear. NOT for use on needle bearings (Use Assembly Grease)

Recommended uses: Steering systems, Cable linkages, Throttle and shift cables and linkages, Remote controls, Propellor shafts, Swivel pins, Drive shaft splines, Tilt lock mechanisms & tubes, Hinge pins, Trailer Wheel Bearings, Replaces 101 special grease.
