

Lowrance Elite 7Ti Fishfinder-Chartplotter

\$1,630

7-inch Fishfinder/Chartplotter with high-bright, LED-backlit display with CHIRP, DownScan[®] and StructureScan[®] technology, built-in.

Sporting a seven-inch, high-resolution touchscreen display, the Elite-7 Ti has your sonar needs covered with StructureScan[®] HD compatibility and support for Low/Mid/High CHIRP and 83/200 /455/800kHz frequencies. It has a built-in GPS antenna and reliable Lowrance navigation technology, allowing you to navigate with ease.

The Elite-7 Ti also features integrated Bluetooth[®] and wireless connectivity that not only allows you to download software updates directly to the unit, but gives you the capability to download Insight Genesis custom maps to the unit – for immediate use – directly from the water.

Includes TotalScan Transducer and NZ Chart.
