

Ronix District Wakeboard & Bindings

\$1,029

The do-all, do-anything attitude of the [Ronix](#) District Wakeboard makes it welcoming for first-timers and advanced riders alike. With [Ronix](#)'s Versatile Rockerline and variable rails, the District hits a blissful cross of pop and smooth carving so it's just as capable dishing out a competition-grade run as it is providing a stable platform for learning to carve. Grab the [Ronix](#) District Wakeboard and capture some rad times behind the boat with the team.

Rocker Type: Versatile Rockerline â€” Continuous/3-Stage Hybrid Shape

Shape: Concave Bottom

Hull: G&R Technology â€” Grip and release channels have all the traction you need without creating unneeded resistance with the water.

Rails/Edges: Variable Rails â€” Not every rider wants a standard rail design from tip to tail. By creating a variable rail there is a greater range to jump on the gas for quicker edge turns, or to have mellower freeride turns.

Fins: Fiberglass 1.0" Ramp Fins
