Sources:Â AM / FM / Bluetooth / USB x 2 / AUX x 2 / iPod / iPhone / MTP / Sirius-XM Ready

Features:

Internal UNI-Dock â€“ Securely protect and charge and compatible Apple iOS or MTP Android/Windows device, while enjoying your favourite soundtrack. UD750 Only

FUSION-LinkÂ® Control (Wired) â€“ Enables direct stereo control from a compatible Multi-Function Display (MFD) or MS-NRX200i wired remote control when utilizing an existing NMEA 2000 or Ethernet network. Visit www.fusion-link.com for compatible MFDâ€™s

FUSION-Link Control (Wireless) â€“ Download the FREE Apple or Android FUSION-Link remote control app from iTunesâ„¢ or Google Playâ„¢ to control the on-board entertainment experience. Available over Bluetooth and Wi-FiÂ® (Note: Wi-Fi control requires a wireless Ethernet router).Â Bluetooth app coming soon.

A2DP/AVRCP BluetoothÂ® Streaming â€“ Stream your familyâ€™s favorite soundtrack from any compatible device, with track, album and artist info displayed, with navigation available from the stereo or connected device.

PandoraÂ® Radio Support -Â Enjoy your favourite Pandora radio station, with thumbs up/down control available from the stereo or connected device. Available via USB or Bluetooth..

AppleÂ® iOSÂ® and MTP Androidâ„¢/WindowsÂ® Media Playback â€“ Unparalleled support of the worldâ€™s most popular media devices, and the smartest interface for browsing your music library.

Multi-Zoneâ„¢ Technology â€“ Four independent audio zones are available, each with advanced localized menu controls, including zone naming. Note: Line Out Zones require an external amplifier.

Optically Bonded LCD – A color widescreen LCD display, optically bonded to improve durability and optimized for daylight viewing.

Dual-USB – Internal and Rear accessible USB connectors are provided, to support all your media device requirements. UD750 Only

Side-Fin Cooling – Amplifier components are optimally configured for the side-fin aluminium heat sink, producing greater thermal efficiency.

Glass Filled Composite Chassis – Structurally rigid and incredibly lightweight, this improves environmental protection and electrically isolates the chassis for complete reliability.

Class-D Amplifier – Provides higher RMS output than a standard stereo, for louder and clearer audio while drawing less current.

True-Marine, Designed and Engineered – Extensively tested to perform in the harsh marine environment.
