

VR4 Bowrider STERNDRIVE

\$129,990

Available Now The latest in our VR Series of highly evolved bowriders, the VR4 is easy to tow, launch and store and really fun to use. The smallest VR Series model delivers plenty of interior space thanks to our BeamForward design, which carries the full beam further forward for more comfort and capacity than traditional pointed bows. Our AftAdvantage design increases the rear seating area by shifting it to the aft-most point of the running surface, allowing the swim platform to extend beyond that. That means more room for comforts like movable backrests for versatile seating configurations and plenty of convenient storage throughout. So Looking for a boat that is perfect for weekend getaways and family vacations? Look no further than the 2023 Bayliner VR4! Designed with families in mind, this boat is the perfect choice for couples or families with young children who want a safe, comfortable, and spacious vessel to enjoy the water. The Bayliner vr4 is an excellent option for water sports enthusiasts, with plenty of power to tow skiers and tubers. Its spacious cockpit can accommodate up to eight people, ensuring that everyone has enough space to relax and enjoy the ride. The boat's interior is also well-appointed, with comfortable seating and plenty of storage space for all your gear. The helm is easy to use, with intuitive controls that make it easy to navigate even if you're new to boating. Overall, the 2023 Bayliner vr4 is an excellent choice for families looking for a safe, comfortable, and versatile boat that can provide endless fun on the water. So why wait? Book your test drive today and experience the Bayliner vr4 for yourself
